## Professional Summary

Computer Science student at PEC with experience in full-stack development and data structures, building robust web applications and scalable systems. Skilled in React, Next.js, Node.js, PostgreSQL, and modern frameworks, with a track record of delivering technical solutions to real-world problems.

## Education

### Punjab Engineering College (PEC)

B.Tech in Computer Science, CGPA: 9.59/10.0

August 2023 - Present

Chandigarh

### Vashist Public School

Class XII: 94.8%

May 2023

Una

### Mount Carmel School

Class X: 97.8%

May 2021

Una

## Projects

### Medicare - Hospital Resource Management | GitHub

- Built real-time hospital tracking dashboard with Next.js and Tailwind, covering 1000+ assets across 30+ hospitals.
- Integrated Firebase for live updates, improving data accuracy and reducing manual effort by 50%.
- Implemented appointment booking with PostgreSQL and Prisma based on patient profiles.

### VehiclAI - AI Powered Car Marketplace | GitHub

- Engineered AI image search with Gemini API, achieving 95% accuracy in vehicle matching.
- Developed car pages with specs, EMI calculator, and booking using PostgreSQL and Supabase; integrated Clerk for auth.
- Created admin dashboard with Next.js, Tailwind, and ShadCN UI to manage inventory and analytics for 100+ listings.

### Cryptrail - Fraud Detection System | GitHub

- Collaborated with a team of 6 to build an AI-powered fraud detection system analyzing 1,000+ wallet transactions.
- Implemented Random Forest model to detect suspicious activity, reducing manual review by 40%.
- Used MERN stack with Next.js for full-stack development and workflow automation.

## Technical Skills

- Languages:** C++, Python, JavaScript, TypeScript, HTML+CSS, SQL
- Technologies & Frameworks:** React.js, Next.js, Express.js, Node.js, Tailwind CSS, Prisma, MongoDB, PostgreSQL, MySQL
- Tools & Libraries:** NumPy, Pandas, Recoil, JWT Authentication, Git, GitHub, Postman
- Coursework:** Data Structures, Algorithms, Object Oriented Programming, Operating Systems, Computer Networks, DataBase Management System, Artificial Intelligence, Design and Analysis of Algorithms, Machine Learning

## Achievements

- SIH 2024 Finalist** – Top 1.5% among 516,000+ participants nationwide.
- Build and Pitch Runner-Up** – Secured top position in a competitive inter-college startup event among 50+ teams.
- Amex Product Track** – Top 40 nationally on the leaderboard in Round 2 of the Amex Product Track challenge.
- Gold Medal, International English Olympiad** – State-level excellence in English.
- Problem Solving** – Solved 400+ problems across various coding platforms.
- PGI-IIH** – Working with PGIMER to improve early eye disease detection through secure patient interaction & Unity-based analysis.

## Position of Responsibility

### Core Member - Images Chandigarh

- Organized GBMs and participated in social outreach and NGO initiatives

### TCR - Career Development And Guidance Center

- Currently part of the Data Team, managed Amex Day and coordinated logistics for Lakshay Pran (200+ participants).

### SubHead - Alumni Relations Committee, Pecfest'24

- Cultivated alumni networks and contributed to Pecfest's success.
